HE IS REPORTED TO HAVE URGED GENERAL HARRISON TO CONSIDER THE SILVER QUESTION.

[BY TELEGRAPH TO THE TRIBUNE.] Indianapolis, Dec. 28.-General Harrison's week of quiet was broken into again to-day by another litical caller of first-rate importance. Senator Henry M. Teller, of Colorado, slipped quietly into town last night, went to the house of a relative here without any one seeing him, and this erning hurried out to have a long talk with the President-elect. Mr. Teller was in the Senate in part of General Harrison's term and would have been there through all of it if he had not resigned his seat to become the Secretary of the Interior under President Arthur. The two men have been personal friends for some time, and the Senator's call to-day, though it had a good deal of political significance, was in part one of oliday congratulation. Mr. Teller was not on his way home to Colorado. He went back this afternoon to Washington. To a friend here, Mr. Teller confessed that he had come to talk with the President-elect in the interest of Thomas C. Platt, whom he is anxious to see in the Cabinet. He sold General Harrison that Mr. Platt had the support of the mass of the Republican party in New-York and that his selection would satisfy more elements in that State than the choice of perhaps any

Senator Teller also said that he talked with General Harrison on the silver question, urging afternoon from her home, No. 84 Central-ave., to the him to recognize as far as possible in his pot cy the sentiment on the coinage question of the tar Western mining States. Mr. Teller is well of silver in the Senate.

Talking this morning of the prospect of an extra session of Congress, the Colorado Senator would call one.

" I do not see any need of one," he continued: gress will be called tegether until next De-

"He would make a good Cabinet officer," Prison. said he, "but I do not know that he wants a portfolie, and I have heard of no effort to press his appointment. There would be nothing to prevent his accepting such a place. His successor in the Senate would be a Republican, as the Oregon Legislature is Republican."

" Does the Far West expect to be represented in the Cabinet?"

Yes. It is expected that one of the Cabinet officers will be taken from the Far West, and there are strong reasons why such a selection should be made, but I know of no one who is being urged. General Harrison himself is a good Western man, He is well informed on matters affecting the Territories and the Western States, and I have no doubt hat he will see that their interests are properly

Mr. Teller has a warm interest in the election of ward O. Walcott, the brilliant young attorney of Denver and Rio Grande Railroad, whose reputation on the Atlantic Coast as an orator, at least, was made at the New-England Society's dinner in New-York a little over a year ago. Mr. Wal-

Mr. White represented one of the Requilion districts in Kentucky for two terms or lover, and cut an eccentric figure in the House of loversentatives by his extraordinary style of the Christmes wift consisted of a handsome antique of coresentatives by his extraordinary style of eratory and his constancy as an objector. Judge Holt is on the bench of the Kentucky Court of Appeals. The two callers missed the General at his house, but came down town again and found him at his old law office. They were eager to divelaim all appearance of a political mission, but it is said by gossiping politicians here that Judge Holt has some idea that his services would be valuable in the Department of the Interior. Mr. White is practically out of politics, having declined to go back to the House of Representatives, and is not suspected to have any political ax of his own to grind. The two Kentuckians had a short talk with General Harrison, and took

Colonel William R. Holloway, whose wife was a sister of Oliver P. Morton, and for twelve years the Postmaster of Indianapolis, got back to-day from a visit to Columbus, Ohio. While here, he says, he had a talk with Governor Foraker about the rumors which have been started every tew days since the election, that the Governor is sure to be a member of General Harrison's Cabinet. The Governor assured Mr. Holloway that he had no desire to go into the Cabinet, and that he could not understand how the rumors in question got abroad. He was satisfled with the Governorship, and he intimated, Colonel Holloway adds, that he would rather try the race for the seat in the Senate soon to be made vacant by the expiration of Senator in Cabinet portfolios, Governor Fornker said decisively, was one that did not trouble his dreams. No offer had been made to him and he did not expect one. Colonel Holloway hopes to be the Public Printer under the next Administration.

There was a bit of go-sip affoat here to-day that shortly after the election, Calvin S. Brice, Chairman of the National Democratic Campaign Committee, had sent a letter to General Harrison, offering him the use of Mr. Brice's private car for the trip in March to Washington. The car is the at the meeting of the Armory Board on July 31, same one used by ex-Senator Thurman on his 1884, is as follows: "Whereas, As an application and stumping tour East last summer. MARYLANDERS FAVOR GENERAL AGNUS. Baltimore, Dec. 28 (Special).—Several Republican clubs in Maryland have recommended General Felix Agnus for a position in the new Cabinet. The Druid Republican Club, one of the largest colored organizations in this city, held a special meeting at which rations in this city, held a special meeting at which speeches were made appealing to General Harrison to recognize Maryland, which fought so hard to be placed in the Republican column. Besolutions were adopted declaring that General Agnus would best serve the interests of the South and the whole country as a member of General Harrison's Cabinet. The General has received many Indorsements from the far South in favor of his candidacy. He has received many letters from veterans who fought with him expressing etters from veterans who fought with him expressing the hope that he will be made Secretary of War. He was one of the organizers and subsequently commander of the 165th New-York Regiment, more generally known as the 2d Duryee Zouaves. Some of the Commissioners are not at all pleased, but find that there is no help for it.

THE GUARDSMEN WILL GET NEW GROUNDS. Henry R. Beekman, Corporation Counsel, showed a Tribune reporter yesterday the law which applies to the parade-ground and rifle range for the National Guard in Van Courtlandt Park, for which the Board of Estimate voted \$50,000. Some doubt had been expressed as to whether the National Guard would get the grounds. In the laws of 1884 it is provided that the Department of Public Parks shall have control of the new Parks. Within three months after the title to the land shall have been perfected, the Departmen to the land shall have been perfected, the Department shall lay out that portion of Van Courtlandt Park, consisting of 120 acres, named and designated in maps by the engineer, J. C. Lane, and submitted to the Legislature, as a parade ground; and that a part shall also be used as a rifle range for target practice by the First Brigade, whenever its commander desires.

"The duty of the Board of Estimate was therefore clear," Mr. Beekman said, "but the real question was whether the city should pay out money to maintain the parade and rifle grounds for a state organization. Mayor Hewitt had raised that point, but all the city could do was to pay the money, because the law was mandatory, and the National Guard would, therefore, get the grounds."

Friday, Dec. 28-p. m. The New-York, Lake Eric and Western states ment for the month of November printed below reflects in its gross earnings the effect of the New-York Central and Hudson's reduction in Western - bound freight rates made on November 12. The loss in gross carnings for the month is \$130,000. But the statement in showing a reduction of \$129,500 in the operating expenses reflects a more important feature: the economy in working, which the last three years' extraordinary expenditures have made possible. Of the loss enforced

by the action of the New-York Central and Hud-

son, \$20,000 falls to the leased Western lines.

THE ERIE STATEMENT FOR NOVEMBER.

Yesterday's new " bear" combination made little headway to-day. On an average to-day's closing figures are little changed from yesterday's. Some are higher and some are lower; but not to the extent of 1 per cent on either side. The stock loan market this morning developed, as was anticipated, an increase in the amount of the " short" interest. It was only a question of rates; the demand for renewals and for new loans was all there. Of course, with the existing uncer-

interest. It was only a question of fates; the demand for renewals and for new loans was all there. Of course, with the existing uncertain sentiment regarding the money market over the New Year, the "bears" had the advantage in making of rates and they naturally used it.

The market opened lower than last evening closing prices, but London and other good buying quickly retored values, and then the market remained dull all the day. Till a late hour the money market, this being Friday and high day for money at the Stock Exchange, was a bugbear.

Would-be buyers thought that perhaps a tight were made unflavorably to criticise the action of the Vanderbilt roads yesterday in declaring the dividends they did, with less earnings than in 1887. The dividends declared are warranted by the business of the year, in which a year ago was not in sight, and the prospectify of a larger business than ever before, to be conducted on business principles, the managements would have been justified in dividing the surpluses of the two preceding years. Not to do so was a conservatism that was unknown in railway management ten years ago.

The feature of the day's speculation was the late drive at Philadelphia and Reading stock and second income bonds. A story came from somewhere and obtained general circulation that the company's net earnings for November will show a loss of \$300,000. We have no information on which either to confirm or deny the report. But probably the authority for the report was aware of the fact that there is no delay in making the monthly statement; that the month of November ends the company's fiscal year; that it has not been supplied to the payment of all first charges, including the transactions of the company were \$9.90,081; if in November they prove to be \$1.100,000 instead of \$1,400,000 in November, 1887, the net for the year will be \$10,000,000,000, which sum is about equal to the payment of all first charges, including the litter dincomes. And this in a year when its loss by strikes exceeded \$1.500,000. N

THE DAY IN THE BOND MARKET. Government bonds were dull, with recorded transactions at figures higher than those of the Treasury. Annexed are the closing quotations: Tid. Ask

In State issues the business was covered by sales of Missouri 6s, 1889, at 103, and South Carolina 6s, non-fundable, at 4 1-844. Of city bank stocks, Shoe and Leather sold (25) at

hank stocks, Shoe and Leather sold (25) at 150 1-2.

A well-distributed business was done in railway bonds, and prices generally were firm or higher. The feature of the market, however, was the drive made at Philadelphia and Reading second incomes, which were sold down to 76 3-8 a 76 5-8. This movement undoubtedly was a part of the speculation against the value of the stock; but Philadelphia was a buyer of the seconds all day, and the decline under 77 was made by a mashing process. Reference is made to our full report of bond sales.

In the unlisted department of the Stock Exchange, Cotton Oil certificates were wild; the sales aggregated 40,500 at 51 7-8a51 1-8a53 1-4a 52 5-8. The character of the baying seemed to be better than that of the selling. Lehigh and Wilkesbarre Coal sold (100) at 30, Brunswick Company (600) at 15 1-4, and Buffaio Iron (500) at \$5.

THE MONEY MARKET. There evidently was a concerted movement on the part of banks and other institutions to mark their outstanding call icans up to 6 per cent. Notices to that effect were general, and usually but there were instances where borrowers notified to pay and obtained new loans at 4 1-2a5 per cent from the same institutions through other names. At the Stock Exchange the money market was opened at the unusually early hour of 11 o'clock, with 6 per cent but; till 2 o'clock the rate ruled at 6a8 per cent, with principal business at 7 per cent. After 2 o'clock the supply was so much in excess of the demand that lenders began to offer money, and the rate declined to 2a4 per cent, closing offered at 3 per cent.

The Clearing House statement to-day was as follows: Exchanges, \$121,772,079; balances, \$5,384,873.
